AC TRANSIT

The More You Know

WHAT TO THINK ABOUT WHEN IMPLEMENTING HYDROGEN INTO YOUR ORGANIZATION

SAL LAMAS – CHIEF OPERATING OFFICER, AC TRANSIT
LAUREN SKIVER – CHIEF OPERATING OFFICER, TRANSDEV US

1

Hydrogen Fuel Cell Programs How Were We Successful?

- Coming in at Number 1
Long standing Experience
- Coming In at Number 2
Internal Champions
- Coming In at Number 3
Encouragement/Approval to Explore

2

How Well Do You Know Yourself?

- A Few Areas We A Going to Explore
 - Agency Culture
 - Facility Layout
 - Operations/Service Area
 - Training
 - Hydrogen At AC Transit
 - Hydrogen At SunLine/Transdev

3

Agency Culture

4

Facility Layout and Facility Maintenance

- Understand Your Footprint
- Ensure You have an Up-to-Date Facilities Master Plan
- What Can Be Reconfigured on Your Current Yard
- Is More Space Possible?
- Do You Maintain Assets or Contract out?
- How Much Grid Power Do You Have available Today?
 - How much can you get in the future?

| Current Footprint | Internal / External Fueling / Maintenance | Real Estate Available? | Grid Power Availability |
|-------------------|---|------------------------|-------------------------|
| 15 Acres | Internal | Yes | 5 MW |
| 25 Acres | External | No | 20 MW |
| 3 Acres | Internal | No | 0 MW |
