

Common Drug & Alcohol Compliance Findings & How to Fix Them

September 19

1:30 - 4:30 PM

Description:

In this session, we'll work together to determine how to respond to a variety of real-life events and circumstances related to USDOT-regulated drug and alcohol testing; including common compliance findings found during Federal Drug & Alcohol Audits. We'll discuss best-practices and industry standards on how to fix these issues as we'll identify tools and technical resources available to help ensure ongoing compliance.

After registering you will receive an email link for the webinar.
